LET US GIVE YOUR COMMUNITY, ASSOCIATION OR BUSINESS FIRE EXTINGUISHER TRAINING! The Nokomis Fire Department has been teaching our community the proper use of extinguishers for many years and we would like to offer this training to you. This is a hands-on approach with real (fire in metal bucket) fire that you will learn to extinguish with confidence.

Fire extinguishers operate using the following P.A.S.S. technique:

1. **PULL...** Pull the pin. This will also break the tamper seal.
2. **AIM...** Aim low, pointing the extinguisher nozzle (or its horn or hose) at the base of the fire.

**NOTE:** Do not touch the plastic discharge horn on CO2 extinguishers, it gets very cold and may damage skin.

3. **SQUEEZE...** Squeeze the handle to release the extinguishing agent.
4. **SWEEP...** Sweep from side to side at the base of the fire until it appears to be out. Watch the area. If the fire re-ignites, repeat steps 2 - 4.

If you would like to schedule training please call Steve Kona at 941-488-8855 or email, [nvfd1@comcast.net](mailto:nvfd1@comcast.net) for more information.

Proud to Serve,  
Steve Kona, Fire Chief
