

Information On the Sherwin Williams Willowbend Paint Booklet

Sherwin Williams, working with the Willowbend Architectural Review Committee (ARC), put together a booklet specifically for Willowbend in an attempt to provide the residents of Willowbend with suggested color schemes for the exterior of their home. In the booklet, for each Sherwin Williams "Stucco/Body" color, there is a page that shows that color and two suggestions for Trim colors and two suggestions for Front Door colors. These trim and front door colors are provided only as suggestions and you may choose any color scheme that appeals to you, as long as they are included on the trim and front door approved paint palette.

Five copies of this booklet were made with actual paint chips. One of these booklets is located at the Sherwin Williams paint store at 4871 South Tamiami Trail, Sarasota, FL and the other four copies are retained by Architectural Review Committee (ARC) members. You can click on [Sherwin Williams Willowbend Booklet](#) to see a pdf version of the booklet. Please be aware that the colors shown on your screen (or on paper if you print pages from the booklet) are very representative of the actual paint chip colors, but they are not the true color and may misguide you. You need to view the actual paint chips in one of the five paint chip booklets to see the true colors. Below is an index giving the page number in the booklet corresponding to each exterior Sherwin Williams color:
